CHÂTEAU CHEVAL BLANC

Cheval Blanc 1934 reveals a complex and intense, quite Burgundian style in this vintage considered the most beautiful of a rather poor decade.

TEMPERATURES AND RAINFALL

1934 is a warm, early year for the interwar period: the harvest began early on September 14th and ended September 28th.

RIPENING AND YIELDS

Harvest of 36 hectoliters / hectare is of generous quantity compared with the average of that time.
